

# POLICE BILL IS PASSED BY THE LEGISLATURE

All Amendments Offered By the Opponents of the Measure Were Rejected.

The Vote  
31 For; 7 Against

Bill Went Through the Assembly as It Came to It From the Senate.

## General Rejoicing at the Outcome--Bill Only Waits Governor's Signature to Become Law.

### UNION PACIFIC POLICY

WILL RETRENCH AS LONG AS  
ROOSEVELT'S ATTACKS  
CONTINUE.

(By Associated Press.)  
CHEYENNE, Wyo., Jan. 27.—Pursuant to the policy of retrenchment which Vice President Mohler of the Union Pacific road is quoted as saying would be followed as long as the President's attacks on corporations continued, orders were issued today reducing the working time of shop hands to three days in each week.

**COLT FROM GREAT SIRE.**  
NEW YORK, Jan. 27.—Word has been received in New York of the birth of the first colt in America by Rocksand, the \$125,000 stallion imported by August Belmont. The foal was born at Belmont's stud farm in Kentucky, its dam being the Rayon D'Or mare Petich. As the first son of the famous winner of two thousand guineas, the Derby and the St.

### PRICES BRISK ON STOCK MARKET

(By Associated Press.)  
NEW YORK, Jan. 27.—Prices rose briskly in today's stock market in the face of several happenings that had been heralded by the speculative element for some time, thus presenting one of the apparent contradictions which confuse the observation in the course of speculative markets. The bond market gave a more emphatic response to the growing abundance of loanable funds than has yet been apparent in that department, and the tone was fairly buoyant.

### SHOOTS HIMSELF THROUGH HEART

(By Associated Press.)  
OAKLAND, Jan. 27.—Col. L. L. Bromwell, one of the best known insurance underwriters on the coast, killed himself in his rooms at the Elks club sometime between last night and noon today. The body was found by a servant who went to call him for luncheon. He had shot himself through the heart. The cause is unknown. For many years he was president of the California Insurance Company, and was always a prominent California Republican politician.

Leger stakes, in England in 1903, the foal will be viewed with interest.

CARSON, Nev., Jan. 27.—The Nevada Legislature, late this afternoon, passed the police bill giving this State a measure that provides for a system of policing in time of riot, that is believed will quell all trouble in the Goldfield section at the present time, and be in a position to handle any future contingency that may arise. Several members, devout union men, made a fight in opposition to the bill, while conservative members, those standing with Sparks, made a forceful issue and won the day. Speaker Skaggs, who has been taking a most active part for the unionists, left the chair and voted against it, leaving it to Speaker Pro-tem Folsom to direct the question of parliamentary law. Skaggs denounced the measure as pernicious, unconstitutional and czar-like. He stated and predicted that the men who voted for it were digging their political graves. He and his followers offered many amendments to the bill which were lost, and the bill went through as it came from the Senate. The vote stood 31 for, to 7 against.

The result of the vote created the greatest enthusiasm in the capitol and around the city, and the best of feeling reigns tonight. The passage of the bill is accepted as a sure indication of good times to follow in the camps of Southern Nevada, the effect of which will be manifest throughout the entire State.

Telegrams had been received from the Mine Owners' Association to the effect that they would accede to the wishes of the people and that the card system would be abolished.

A resolution will be sent to the President asking him to keep the troops at Goldfield until such time as the State can organize her forces under the bill.

The first message to be sent by the Governor after the passage of the police bill will be to advocate the passage of an arbitration measure. It is understood that this measure has already been prepared and will be reported favorably by the committee. The report will go into detail and will set forth the reasons for the passage of the bill. The bill that will be recommended confers upon the Governor discretionary power to summon an impartial court of arbitration whenever labor disputes arise which involve the rights of third persons or of the State as a whole. This arbitration shall not be compulsory and neither shall the findings be enforceable as a decree of adjudication, but it is expected that such a method will do much to relieve the bitterness and stubbornness, that is generally engendered by strikes.

### Hummel's Story Will Be Heard at His Island Prison

(By Associated Press.)  
NEW YORK, Jan. 27.—The Shaw defense closed its case today with maniac depressive insanity as an explanation of the death of Stanford White at the hands of the young Pittsburgh millionaire. Tomorrow the prosecution will begin its evidence in rebuttal and the case will go to the jury by Wednesday night or Thursday noon. District Attorney Jerome tomorrow morning will apply for the appointment of a commission to take the testimony of Abraham Hummel, the convicted lawyer, who is confined in the penitentiary on Blackwell's island, and who is said to be too ill to appear in court. Littleton of the defense said he would oppose any such action, whereupon Justice Dowling announced that if it was necessary he would go to the island himself tomorrow night in company with the defendant and his counsel, to preside at the taking of Hummel's testimony. The jury, it was said, would not be compelled to take a night trip across the river.

**REWARD FOR MURDERER.** here from La Crosse, Wis., several months ago. He leaves a widow and TACOMA, Wash., Jan. 27.—A. W. daughter. The latter arrived from Thornley, 60 years of age, Mexican Stanford university yesterday. A reward of \$1000 is offered by the State by highwaymen Monday night, died and county for the apprehension of this morning. Mr. Thornley came the murderer.

### HEAVY LOSS BY AN EXPLOSION

(By Associated Press.)  
LOS ANGELES, Jan. 27.—The oil tank, engine room and adjoining plant of the Pacific Light and Power Company at Redondo, were destroyed by an explosion early this evening. A large quantity of oil is reported to be on fire near the plant, which was recently completed at a cost of over \$1,000,000. Five persons are reported injured in the explosion.

### NEWLANDS GIVES DINNER FOR BRYAN

(By Associated Press.)  
WASHINGTON, Jan. 27.—Senator Newlands of Nevada gave a dinner tonight in honor of William J. Bryan, who was the guest of the Senator at Woodley, his country home. Those invited to the dinner were one-half the Democratic members of the Senate, according to the alphabetical list of names in the Congressional directory. Senator Newlands said today that there was no political significance attached to the dinner.

### TO RUN FULL FORCE.

PROVIDENCE, R. I., Jan. 27.—The Gorham Manufacturing Company works, which has been operated on short time for several months, will resume full time within a fortnight, affecting 1800 men.

### HEARST AFTER BRYAN

LITTLE WILLIE DESIRES THE  
SCALP OF "PEERLESS  
ONE."

INDIANAPOLIS, Jan. 27.—The organization of the State Independence League of Indiana and the employment of more than a score of men in different sections of the State in the work of preliminary organization, have forced leading Democrats to admit that there is to be an element of weakness in the national campaign which they had not expected, and which by reason of its very insidiousness may prove more potent than if it were openly in opposition. Of course, the men who are at the head of the movement have been and still claim to be Democrats. In this, the Democrats say, lies the danger to their organization.

Mr. Bryan, the Hearst men say, cannot be elected President, and though the Democrats will nominate him and make another campaign in his behalf, it is asserted that it will prove a waste of time and money and accomplish nothing. Hearst is appealing to the discontented class very strongly.

### M'NAMARA IS AGAIN IN THE SHIPPING LIST

The MacNamara mine has returned to the list of shippers. A carload of fifty tons of ore will be shipped today to the Western Ore Purchasing Company, following close on the heels of the forty-five ton shipment that went out on last Friday.

The ore of both shipments will average \$150 a ton and there are seven feet of it.

"We encountered this strike about three weeks ago," said General Manager J. W. Chandler of the MacNamara. "This vein is in the west territory of the mine, far removed from the ledge that is in litigation. We are stopping across the top of the 85-foot raise, and the ore has been improving in value right along. We have started another upraise thirty-five feet east of this, which is up six or eight feet, and we have run into two and a half feet of the same character of ore."

The long drawn out suit of the West End versus the MacNamara has been definitely set for trial for April 20th. It will probably be heard before Judge Langan, as Judge O'Brien is disqualified from hearing the case, he having been formerly one of the attorneys for the West End.

### BELMONT IS TURNING OUT THE PAY ORE

The Belmont mine just now occupies the center of attention of all the Tonopah mines, and the work going on there now is of the greatest interest to the camp and to the outside world. The sudden rise on Friday last was due to a report which was sent out to the effect that there had been an important strike on the 1000 level, and that news was not known in this city at the time.

There is not only ore on the 1000 level, there is ore also on the 800 and the 900, and there will soon be a body crosscut on the 700. On the 800 level, a crosscut has been run to the south of east for a distance of 450 feet, and then, turning, at the northwest corner of the Occidental claim, it has been run to the southeast 340 feet, where it has encountered the south vein, the latter running northeast and southwest, the dip being in the judgment of Superintendent Brady, to the south.

The shoot of ground opened up at this point is two hundred and fifty feet in length, and the width of the vein is between three and three and a half feet. The ore will average about \$20 a ton. South of the south vein is another vein which has been opened up for a width of eight inches, and the average value is \$125 a ton.

On the 1000-foot level, they have the ore in three different places. On
